

Earth Systems Inc. is a consulting and engineering firm that supports regulatory agencies and private clients in the performance of hazardous waste and petroleum assessment and remediation. Our areas of expertise include Environmental Engineering, Contamination Assessment and Remediation, Environmental Compliance, Property Transfer Assessments, and Permitting.

Many firms rely on a corporate or management system to make the best out of an average workforce. Earth Systems disagrees with this philosophy. We don't staff with cogs or rely on a detailed manual. We hire talented people who provide value to our clients. If you are looking for a home for the best years of your career and an opportunity to work for a dynamic firm on challenging projects with other extraordinarily talented professionals, Earth Systems is the place for you.

Earth Systems is seeking Mid-Level Environmental Engineers and Geoscientists to perform the following tasks:

- Emergency Response and Site Reclamation Contractor Oversight
- Groundwater and Soil Sampling
- Environmental Site Inspections
- Remediation System Design and O&M
- Prepare Assessment/Remediation Reports and SPCC/SWPP Plans
- Air Permitting and Air Compliance

This position will require approximately 50% travel within North Dakota and surrounding states (up to 75% travel during your first several months on the job).

Required Skills and Experience:

- Bachelor's degree in engineering or geoscience, accompanied with three to six years of relevant experience.
- Excellent technical writing and verbal communication skills.
- A strong desire to provide excellent, innovative, practical customer services and a commitment to technical excellence.

Preferred Qualifications/Experience includes:

- Prior experience supporting the Oil & Gas industry.
- 40-hour HAZWOPER certification.

Earth Systems offers competitive compensation, excellent benefits packages and the opportunity to work in a fast-growing, successful, team-oriented environment. Bonuses

and commissions are available to employees who successfully expand Earth Systems' existing client base. Salary is based on skill and experience.

Earth Systems is a drug-free workplace. Strict adherence to corporate health and safety practices is a requirement for any position offered at Earth Systems.

We are an equal opportunity workplace that encourages diversity in the workforce.
